

WE CELEBRATE THE HOME AS THE MOST IMPORTANT LEARNING PLACE

GARDEN CITY PUBLIC SCHOOLS
Office of Learning Services

Your kids are resilient and thriving!

Garden City students are ready to learn, positive, and determined to succeed. Your support helps students do well in school and overcome hardships. We thank families for their positive impact.

Home learning is more than math and reading!

Home learning includes:

Showing gratitude

Having a life vision

Valuing others

Joy in the little things

Being confident

Values

Traditions

Studies show that:

What students learn at home and in their communities helps them in school. All families have a lot to teach!

What else can families do?

Share family stories! Family stories give children a sense of belonging and help them build strong identities. Knowing about family members who have overcome obstacles makes them stronger, too.
